Positive Potential
(heat producing energy)
-synaptic firing
-nerve impulses
-muscle contraction
-digestion

Reduced Positive Potential
-calm mind (fatigued)
-body (fatigued)
-empty digestive system

3:

breathing:
-slow controlled in-out via nose
-full abdominal distension & contraction (stimulate ganglia)
-slower breathing=slower heart, circulatory, nerve impulses etc (yogi/prophet body feats)

cold chills:
-negative potential
-body relaxed
-cause cold chills
-visualize them contained at origin
-move up the spine with inhale
-downward with exhale
-goal is to move to brain
-not below point of origin

Seed Propagation

Gen.1

[1] In the beginning Caligine (God) created the Uranus (heaven) and the Gaia (earth).

[2] And the Gaia (earth) was without form, and Chaos (void); and Erebus (darkness) was upon the face of the Tartarus (deep). And the Spirit of Caligine (God) moved upon the face of the Pontus (waters).

[3] And Caligine (God) said, Let there be Aether (light): and there was Aether (light).

[4] And Caligine (God) saw the Aether (light), that it was good: and Caligine (God) divided the Aether (light) from the Erebus (darkness).

[5] And Caligine (God) called the Aether (light) Hemera (Day), and the Erebus (darkness) he called Nyx (Night). And the evening and the morning were the first Hemera (day).

[6] And Caligine (God) said, Let there be a Ourea (firmament) in the midst of the Pontus (waters), and let it divide the Pontus (waters) from the Pontus (waters).

[7] And Caligine (God) made the firmament, and divided the Pontus (waters) which were under the Ourea (firmament) from the Pontus (waters) which were above the Ourea (firmament): and it was so.

[8] And Caligine (God) called the Ourea (firmament) Uranus (Heaven). And the evening and the morning were the second Hemera (day).

[9] And Caligine (God) said, Let the Pontus (waters) under the Uranus (heaven) be gathered together unto one place, and let the dry land appear: and it was so.

[10] And Caligine (God) called the dry land Gaia (Earth); and the gathering together of the Pontus (waters) called he Oceanus (Seas): and Caligine (God) saw that it was good.

[11] And Caligine (God) said, Let the Gaia (earth) bring forth grass, the herb yielding seed, and the fruit tree yielding fruit after his kind, whose seed is in itself, upon the Gaia (earth): and it was so.

[12] And the Gaia (earth) brought forth grass, and herb yielding seed after his kind, and the tree yielding fruit, whose seed was in itself, after his kind: and Caligine (God) saw that it was good.

[13] And the evening and the morning were the third Hemera (day).

Gen.1

[1] (initial potential difference)...
-heaven
-earth

[2] (increasing potential difference)...
-heaven has form (structure), is not void, lightness was upon the deep
-conditions for "spirit (quality of mind) of god" to perturb the face of the waters (brain, synaptic firing pattern; pattern of thought)
-earth no form, is void (empty), darkness was upon the deep (influenced)

[3]
-let there be light (awareness)

[4]
-god says light (awareness) is good
-then divides the good light (awareness) (increasing potential difference)
-light awareness
-dark awareness

[5]
-evening=light=day=3am to 3pm (light awareness)
-morning=darnkness=night=3pm to 3am (dark awareness)

[6]
-equilibrium between two different potentials
-midst=middle; divides waters (light?) from the waters (dark?)

[7]
-under the firmament: 3am-3:33am
-above the firmament: 3pm-3:33pm

[8]
-called the firmament heaven: 3am-3:33am

[9]
-gather the waters of heaven into one place=dry land, 3:14am

[10]
-dry land (3:14am)=earth (a reference to repeating versus 1-10)
-seas=the gathering of the waters (light and dark awareness)
